

# JHANSI SMART CITY LIMITED

## ENVIRONMENT SENSOR UNDER ICCC, JSCL

Environment Sensors are installed at 5 locations in the city. These are used to measure different parameters in the atmosphere. Below parameters are being monitored by the sensors:

1. Temperature
2. Pressure
3. Humidity
4. PM 10
5. PM 2.5
6. CO2
7. CO
8. NO2
9. SO2
10. O3
11. Noise
12. UV
13. Light

These are monitored on hourly basis and displayed on <https://smartcityjhansi.com/web/guest/environmental-sensor> . Pollution Department of Jhansi is aware about this monitoring and can take needful action in case of alarming situation.

Locations for Environment Sensors are as follows:

S.NO.	LOCATION NAME
1	Elite Chauraha
2	BKD Chauraha
3	Bus Stand Mandi Tiraha
4	Minarva Chauraha
5	Medical Bypass Tiraha
